***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art teaches the use of an image sensor having multiple output transfer registers for transferring signal charge out of the sensor array. Furthermore, the prior art teaches providing a readout gate between the transfer registers for accumulating charge. Furthermore, the prior art teaches methods for outputting the data to the plurality of transfer registers. However, the prior art does not teach or fairly suggest having the transfer registers in the above circuit configuration receive charge concurrently from a single row of pixels in the sensor array wherein the transfer registers having an accumulation gate between them is arranged so that the transfer registers will concurrently transfer charge from two different rows of image sensors. For this reason the claims are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James M. Hannett whose telephone number is 571-272-7309. The examiner can normally be reached on 8:00 am to 5:00 pm M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lin Ye can be reached on 571-272-7372. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
